

СОДЕРЖАНИЕ

NONDESTRUCTIVE TESTING AND DIAGNOSTICS OF MATERIAL PROPERTIES AND THEIR DEGRADATION IN USE

- Kostin V. N., Vasilenko O. N., Porseva A. M., Kabakova A. A., Melchakova A. I.**
Magnetic flux distribution in locally magnetized two-layer ferromagnetic objects. 8
- Pechenkov A. N., Shcherbinin V. E.** Dependence of reflected impedance on the speed of the relative movement of the coil and conducting half-space in eddy current measurements. 16
- Pechenkov A. N., Shcherbinin V. E.** Influence of calculation accuracy on the time and results of solving the inverse problem of magnetostatic nondestructive testing. Need of parallel computations. 22
- Vykhodets V. B., Kurennykh T. E., Nefedova O. A.** Application of nuclear reaction analysis to studying hydrogen diffusion and nonstoichiometry in metal oxides. 31

MECHANICS OF STRENGTH, DAMAGE, WEAR AND FRACTURE OF MATERIALS THROUGHOUT THE PRODUCT LIFECYCLE, FROM DESIGN TO WITHDRAWAL

- Chupin V. V., Chernogubov D. E.** Stability of flexible spherical panels of variable thickness under various fixing conditions. 45

THE RELATION OF THE STRUCTURE AND PHASE COMPOSITION TO THE PHYSICAL-MECHANICAL PROPERTIES OF MATERIALS IN USE UNDER EXTREME CONDITIONS

- Pugacheva N. B., Michurov N. S., Trushina E. B.** Peculiarities of the structure of welded aluminum alloy joints. 58
- Shirinkina I. G., Brodova I. G., Astafiev V. V.** Thermal stability of the ultrafine grained aluminum alloy after high strain-rate deformation. 72
- Voronin V. I., Arbuzov V. L., Bobrovskii V. I., Danilov S. E., Kozlov K. A., Proskurnina N. V., Sagaradze V. V.** Peculiarities of radiation-induced processes in the Cr-Ni-Mo austenitic steels studied by neutron diffraction. 80
- Orlova D. K., Chashchukhina T. I., Voronova L. M., Degtyarey M. V., Krasnoperova Yu. G.** Effect of impurities on dynamic recrystallization in copper deformed in Bridgman anvils. 90
- Frolova N. Yu., Zeldovich V. I., Khomskaya I. V., Kheifets A. E., Shorokhov E. V.** Influence of aging and strain on the structure and mechanical properties of chromium-zirconium bronze. 99
- Dobromyslov A. V., Taluts N. I.** An electron-microscopic study of the deformation structure of the 12Kh18N10T steel after explosive loading in spherical systems. 109

Stolbovsky A. V., Popov V. V., Popova E. N. Structure and thermal stability of tin bronze nanostructured by high pressure torsion. 118

SCIENTIFIC FOUNDATIONS FOR MATERIAL DESIGN AND DEVELOPMENT OF EFFECTIVE TECHNOLOGIES OF MAKING MACHINE PARTS AND STRUCTURES, INCLUDING THOSE TO BE OPERATED UNDER EXTREME CONDITIONS

Antonova O. V., Novikova O. S., Volkov A. Yu. Microstructure of an equiatomic CuPd alloy after severe plastic deformation and subsequent ordering. 133

Khlebnikova Yu.V., Rodionov D. P., Akshentsev Yu. N., Egorova L. Yu., Suaridze T. R. Investigation of the structure and texture of copper-yttrium alloy substrate tapes. 139

Koroleva L. F., Dobrinskaya M. N., Kamantsev I. S. Doped nanocrystalline calcium carbonate-phosphate – a biomaterial for bone repair and strengthening by drug delivery. 147
